The Pittsburgh Daily Commercial.

VOL. 1.—NO. 40. PITTSBURGH, THURSDAY MORNING, OCTOBER 22, 1863. PRICE THREE CENTS.

The Daily Commercial.

THE Prince of Wales has bought BYRON'S Newstead Abbey.

One man in New Hampshire has sent 30,000 wild pigeons to market this season.

ON the 11th inst., fever was still prevailing among the shipping at Pensacola.

THE Navy Departments needs men. Where are you, sailor boys?

A PARIS paper says a son of the famuos VIDOCQ is in prison there for stealing shirts.

The invalid corps has been organized into sixteen regiments.

THE receipts of the Illinois Central railroad Company amounted in September to $466,915.16.

OWING to his shocking bad hat Vice President HAMLIN was recently mistaken for one of JEFF DAVIS'S guerrillas.

BARON GUSTAVUS ROTHFCHILD has retired from business with a fortune of 150,000,000 francs, or $30,000,000.

DR. BROWN, the abortionist, has been convicted of manslaughter, and has received a severe sentence.

JOHN HAY, Esq., the President's Private Secretary, returned to Washington yesterday from his visit to the West.

THE Muscovites are said to receive the adulations of female New York with as much grace as Japanese TOMMY.

A SISTER of STONEWALL JACKSON says he voted against secession. We must, however, judge him by his acts.

SECRETARY SEWARD being unable from pressing public business, to attend the New York Corporation dinner to the Russian naval officers, has sent a letter of regret and friendship.

THE Empress EUGENIE, at Biarritz, dances until two o'clock every morning, bathes next with the Princess MURAT—deuced pretty woman—and both frolic wildly in the surf.

LETTERS from Egypt state the murrain still continues there, and will cause an immense loss to that country. It is already estimated at five millions dollars.

THE rates of passage by steamer from San Francisco to New York have been reduced to $222 for the first cabin, $102 for the second cabin, and $75 for steerage.

MR. JACOB C. EASTMAN, of Chatham, New Hampshire, recently discovered that some wild animal was making depredations upon his corn, and setting a trap one evening, the next morning found that he had caught a bear.

THE STATE QUOTAS.—The quotas for the several States, under the President's proclamation for three hundred thousand volunteers, have been prepared, and will, without delay, be forwarded to the respective Governors.

THE New Bedford *Standard* says the whaling business of that port is assuming all the activity and bustle of former years. Quite a new spirit seems to have been infused among the leading firms of the city.

AMONG the rebels captured by our forces the other day, in the vicinity of Columbia, was the notorious GALLOWAY. He is the same man for whose capture Gen. NEGLEY, some time ago, offered a reward of five thousand dollars.

LADY COPYISTS DISMISSED.—By order of the Secretary of War, all the ladies employed as copyists in the office of the Provost Marshal General have been dismissed. It is alleged that the practice of giving out copying to ladies is more expensive than the employment of clerks would be.

ON the occasion of a magic lantern exhibition, the scene of the children of Israe crossing the Red Sea was given, and the small children were asked if they could tell what it represented. One little fellow immediately sang out, "BURNSIDE crossing the Rappahannock!"

A COLORED ARTILLERY REGIMENT.—It is contemplated to raise an artillery regiment of colored troops in Rhode Island. Applicants from that State for commissioned officers of this regiment will be examined to-morrow before the board, which is now in session in Washington. This will be the first colored artillery regiment.

NOBLE BOYS.—We learn from the Harrisburg *Telegraph*, that the soldiers composing the Forty-ninth and Fifty-third regiments of Pennsylvania volunteers (three years' men) have unanimously consented to extend their term of service three years longer. This act is highly commendable, and is the best possible evidence that these noble soldiers are enlisted heart and soul in their country's cause.

THE Africans in New Orleans have a Voudoo or fetish worship, and believe in charms. Lately a policeman's wife offended the Voudoo Queen, and she by her incantations banished sleep from her victim's eyes, until were found sewed up in her pillow two images made of rags, that had wrought the evil! Upon these being burnt the "ravelled sleave of care" was knit up again, and Voudoo was countervailed.

THE wounded recently paroled and returned to our lines at Chattanooga by Gen. BRAGG, had remained eight days upon the field without having their wounds dressed. The Federal surgeons who were prisoners were not allowed to touch one of our wounded during the entire time they were there. The enemy had no supplies, and many of our men suffered terribly.

HOW OHIO WAS CARRIED.—A private letter from Cleveland, Ohio, says: "The result of our election was brought about mainly by the interest and exertion of our business men, who, for the first time at elections, closed their business, and not only went to the polls and voted, but many of them stayed there from the opening (half past 5 A. M.,) to the closing, giving 'one day to their country.' If the lesson is worth anything to New York, we will imitate it in November next."

THE rebel rams building in England, and nearly finished, have been transferred, it is said, by the French banker Erlanger to the Mexicans, and Mexican commissioners have visited Laird's yard to make inquiries in reference to the balance due to complete payment. The money, it is said, will come out of the Mexican loans now open in Paris, London and Vienna, This is undoubtedly a mere ruse to get the ships out of the yards without the interference of the British Government. The Mexicans can want no such vessels, for they are at war with no foreign power, and France has undertaken to settle the domestic difficulties which have afflicted that country. The sale to the Mexicans is like the sale of the rebel steamer Georgia to the Emperor of China—it merely means a smart attempt to get possession of the iron-clads for the rebel service.

NEW JERSEY POLITICS.—The Unionists of Essex county, New Jersey, (including Newark, Orange and other towns,) have nominated Judge CHAS. WAUGH as their candidate for Senator. Judge WAUGH is a gentleman of great worth of character, and possesses in a marked degree the qualifications to a proper discharge of the duties of the senatorial office.

REV. HENRY WARD BEECHER has been addressing a public meeting at Glasgow on the American war. The *Times* editorially criticises Mr. Beecher's doctrines in favor of the preservation of the Union at all cost. It says it can listen to any one except a minister of religion who blasphemously says the maintenance of the American Union is a religious end, and sanctifies the means in the sight of God. No English audience can possibly listen to such language with any other feelings than disgust. Mr. Beecher is to deliver addresses in Manchester and Liverpool.

THE Cincinnati papers state that a report was brought to Covington, on Thursday, by a gentleman from Falmouth, that a squad of soldiers, who had been sent into Owen county in pursuit of the murderers of Major WILEMAN, of the Eighteenth Kentucky Volunteers, had returned with a couple of men, who were indentified as the parties who took Major WILEMAN from his home. They were taken to the very spot where the body of the lamented WILEMAN was found, and shot. One of them escaped, after being wounded. He was tracked, by his blood, for several miles. The other man was killed.

NEGROES IN NEW ORLEANS.—The influx of fugitive negro women into New Orleans from the surrounding country is already a subject of much local concern. Many of them, who are utterly unfit for housework of any kind, are said to be living in idleness and want. If allowed to remain in the city in their vicious vagrancy, it is apprehended that they will soon become a serious burden, if not a curse to the community. The New Orleans *Picayune* suggests that they should be sent to save the maturing crops on the sugar and cotton plantations, where their services for several months to come would be worth many thousands of dollars.

FROM PHILADELPHIA.

Our City Defences Again----Departure of the Committee to Invite the Russians to Pay us a Visit----Judge Woodward to Retire to the "Rural Districts"---The Septennial Assessments---Our Improvements----Introduction of Dummy Engines, Bridging the Schulkill. etc.----The Soldiers in our Hospitals.

Special Correspondence of the Commercial.

PHILADELPHIA, Oct. 20, 1863.

Our citizens are again beginning to talk about "defences." They soon got enough of the "models" got up to order by a pack of individuals, who were about as suitable to construct a tunnel to Smith's Island, as they were to perform the duty to which they were assigned. There was, perhaps, one man among the whole number who might have had some idea of what we wanted and where we wanted it. Now, after they have bled us nicely, it appears that the fact is settled that the east bank of the Susquehanna is the place to defend Philadelphia. Wonderful philosophers! Governor Curtin told us over and over again that the Susquehanna was the place for us to defend ourselves; but somehow or other it was forgotten until the city was wheedled out of about as much as she would bear. You of Pittsburgh took the right view directly, and now there is little fear that any small force could disturb the equanimity of the "Smoky City." If I have been informed rightly, your engineers went *out* of the city, and prepared for its defence. Ours acted the reverse. Anyhow, I suppose when the Legislature convenes, the project of fortifications along the Susquehanna will be mooted, unless the rebellion should be wound up before that time.

The fine weather now is favorable to the success of our Fall Races. They are excellently attended, for Philadelphia, and, I understand, give better satisfaction than ever before. The mildness is also very conducive to the rapid advancement of improvements of various kinds now progressing with us. We have always been content with following in the wake of New York, and indeed some other cities at times.

We have been for several years trying to introduce the "dummy" system on certain railroads that monopolize various streets, but somehow there have always been enough old fogies to keep us from enjoying the benefits they would afford us in many ways. The Frankfort and Southwark Passenger Railway Company bought this antiquated party last winter, however, and got the best of them. Now they are having half a dozen "dummies" built for use on the Frankfort end. This will no doubt be the grand inauguration of the system; for they must come into use where a route is several miles in length. If the Pennsylvania Railroad Company would only try them on Market street, instead of mules, it would be a great blessing. The residents would soon become accustomed to them.

We are also greatly favored by the mildness in building our Chestnut street bridge, which has been on our hands already long enough to have built two just like it, if the necessary vigor had been displayed. It has proved, however, one of those "sweet morsels" to some individuals, I expect, and they will roll it under their tongues for another year or two. When it is finished, however, we shall all wonder how we managed to get along without it so many years. And it is strange, too, how such a mass of people remained quiet so long with only two bridges over the Schuylkill below Fairmount for four or five miles, and those of a perishable character. Probably before the Chestnut street bridge is completed we shall commence the construction of another at South street, which is really, next to Market street, the most important point for one on the river. The southerly part of West Philadelphia is filling up so fast, and the early removal of the Almshouse, are great incentives to its early completion.

Our City Commissioners and Assessors are now making the Septennial assessment. They will probably be engaged on it about one month yet. The taxable inhabitants *only* are embraced in this assessment, and the basis of our representation will be regulated by it. Notwithstanding the Assessors have hitherto been instructed to use great care in their labors, the class of men upon whom the labor has generally devolved has greatly interfered with our obtaining a satisfactory return. They have been again instructed to be thorough, and probably, under the present circumstances, we now reasonably hope to arrive at the probable number of legitimate taxables. I know those who have resided in our city for several years, yet by abstaining from voting and keeping away from public gatherings, they have always managed to keep off the books. It may seem strange to many that such things could be, but I *know* it to be the case.

The number of soldiers in our hospitals is being rapidly depleted, there being now but 1,975 who are unable to do duty. Unless there should be another important battle soon, the cool weather will have such a favorable effect that this number will be greatly lessened within the next four weeks. The Government is gathering in every available man now, and I notice a marked diminution in the number of our military promenaders, although I must confess that there is still too many about in civilian's dress. There is one prominent merchant in this city who has three sons who are officers of colored regiments now on duty before Charleston. One son is Colonel of the Fifty-fourth Massachusetts, another Colonel of the Fifty-fifth, and the other a lieutenant in one of the two. These three sons are all in town, and I judge not very feeble, as they are able to promenade and make calls very comfortably.

The committee of Councils who are to attend personally to extending an invitation to the Russian officers now at New York, left for that city this afternoon. A bevy of reporters accompanied them, and the probabilities are that we shall be favored with several—or more—effusions strongly flavored with "Jersey" champagne. As Washington Irving used to say, "Ugh! it is much against the stomach of my sense."

This is the season among some of our churches for disposing of pews. As a general thing, I am informed that rents in all the churches are considerably higher than ever before. Really War has a singular aspect. Whether people are becoming more moral, or whatever it is, I do not feel authorized to say. I see it stated in an afternoon paper that the bidding at the Church of the Holy Trinity "was most spirited" to-day, and that the pew hitherto occupied by Judge Woodward went off at the comfortable price of $925. The "par value;" as the stock brokers say, was $750. So we go. Should the war continue three years longer, some of us will be compelled to take to the groves, as the Puritans did. (I have been informed by a gentleman who ought to know something about the Judge's affairs, that he purposes to retire from this city and return to his former residence in the "rural districts, where he is more fully appreciated." The sale of his pew rather confirms this statement. He is said to take his recent defeat very much to heart, and wonders how it was possible that he could have been so mistaken in the feelings of the people.)

PROF. A. D. BACHE places us under obligations for a copy of the Coast Survey for 1861

A TERRIBLE accident occurred at Troy, N. Y., Oct. 19. A number of men were engaged in digging a sewer, twenty feet below the level of the street, when both sides caved in, burying about twenty. Three dead bodies have been taken out and only three were saved alive. There are still twelve or fifteen persons under the earth, and men are vigorously edgaged in digging them out.

A KENTUCKY GUERRILLA SHOT.—KELLER, the notorious ruffian, who a few weeks since murdered Capt. WILEMAN in his own home, was captured last week, near Sharpsburg, Ky., with several others of his band of outlaws. The guard having him in charge, took their prisoner to Mount Sterling, where a man, formerly belonging to the Ninth Kentucky Cavalry, shot and mortally wounded KELLER, while in the hands of his custodians. Thus has justice been speedy in her vengeance.

INJURIOUS ACTION OF LEAD PIPES.—A Dr. SCHWARTZ, of Breslau, has discovered a means whereby the portion of the lead forming the interior surface of the lead water-pipe may be converted into an insoluble sulphide, so that the water, when passing through, will be as free from contamination as if glass were used. The end is effected by passing a strong solution of the sulphide of an alkali through the pipe to be acted upon. This solution, which is used at a temperature of about 212 degrees Fahrenheit, and is allowed to act on the metal for from ten to fifteen minutes. It is stated that, in practice, the boiling solution of caustic soda and sulphur is found to answer every purpose.

ARANGEMENTS FOR THE RECEPTION OF MR. H. W. BEECHER—REV. HENRY WARD BEECHER is expected to return home early in November, and the congregation of Plymouth Church are making preparations to receive him. It is understood that a steamboat has been chartered, in which MR. BEECHER'S friends who bade him farewell in the harbor will go down to the Narrows to meet him on his return. The Plymouth Sunday School Association has arranged for a musical entertainment. It will hold its annual festival subsequent to the arrival of MR. BEECHER, and will distinguish the occasion with reception honors to the pastor. MR. BEECHER has been announced to speak at Exeter Hall to-morrow, JOHN BRIGHT in the chair. He may also speak in Birmingham, but his arrival in New York will scarcely be delayed beyond the 10th of next month.

MODERN ECONOMY OF TIME.—The *Scientific American* thus shows how time has been economized by the application of machinery.

Cotton.—One man can spin more cotton yarn now than four hundred men could have done in the same time in 1760, when Arkwright, the best cotton spinner, took out his first patent.

Flour.—One man can make as much flour in a day now, as a hundred and fifty could a century ago.

Lace.—One woman can now make as much lace in a day, as a hundred women could a hundred years ago.

Sugar.—It now requires only as many days to refine sugar, as it did months thirty years ago.

Looking Glasses.—It once required six months to put quicksilver on a glass; now it needs only forty minutes.

Engines.—The engines of a first-rate iron clad frigate will perform as much work in a day as forty-two thousand horses.

This list might be extended indefinitely, for there is scarcely an article of industry produced which has not been increased in quantity to the same extent, by the imployment of improved mechanical means for its production. There is probably no class of people who have more added to the wealth of the country than inventors, whose business it is to economize time, by devising the best methods of accomplishing labor.

Desperation of Copperheads.

VALLANDIGHAM in reviewing the battle field of Ohio, and a correspondent from Philadelphia—(these two chapters of lamentations appropriatively filling the same column of the *Post*) that of Pennsylvania are alike gloomy for the future of Copperheadism. The Pennsylvania correspondent is especially sad. He says in so many words that the Copperheads in a direct trial have been convicted of disloyalty, and that no hope exists for them, save in rebellion—aye, he means armed rebellion to the Government. GLANCY JONES vouched this same desperate scheme a few days before the election, in the darkest parts of Berks county. If defeated they had to look to another mode of success. The stump speakers here did not take the hint then, and to make amends now, this correspondent of the *Post*, now hints at rebellion as the only remedy. Why not come out at once and raise the Confederate flag. That type of sentiment represented by this same paper, would then be entitled to some credit for courage. Now they are a set of canting hypocritical cowards. They have all the VALLANDIGHAM, JEFF. DAVIS & co. bad qualities, without being redeemed by that one virtue of outspoken courage.

Sir Oracle Unearthed.

In our morning edition of Saturday we commented upon an article which appeared in the New York *Tribune* of the 15th inst. We temperately, yet firmly, deprecated the propriety of journals published without our borders interfering actively in our local contests and our domestic legislation, and we expressed our indignant reprobation of, and the merited detestation with which our people regard, the stab in the back aimed at the fair fame of our honored Chief Magistrate, and the attempt to deprive him of the honor due to the victorious leader in our hard fought contest for Union, Liberty and Law. We ventured the suggestion that the *Tribune* had been imposed upon, and that we knew by whom; for it is a characteristic of his egotism to make statements based upon its hopes, and to be so absorbed in self as to suppose that a great people struggling for a great cause will permit their attention to be drawn from the main object and lend themselves to the paltry schemes of personal spite which a scurrilous demagogue assures them is worthy of their notice.

We hinted that we recognized the spirit which prompted, if not the hand which penned this contemptible assault upon our patriot Governor, and we are convinced of the correctness of our surmise by its appearance without a word of reproof in Monday's *Gazette*. We had faint hopes that the verdict of our people last Tuesday, would have been sufficient to have made even the *Gazette* ashamed of its base slanders on the standard-bearer of the Union cause in this State. Apparently such was the case; but now we see that having lost, by its reckless mendacity and shameless vindictiveness, all influence in our community, it further seeks to make use of metropolitan journals of character to make public its attacks upon Union men and Union measures, and by re-publication in its columns lends the feeble aid of its meager circulation to the crime.

Neutrality.

In all contests wherein States or Sovereignties—individuals or societies are engaged; it is the men of *positive* character, who always are honored and prevail—why this fact is so, we opine, arises from the respect and regard that all men, however humble or exalted, bear to courage and manhood.

Whilst we *pity* the eunuch, who without his agency or consent, has been mutilated, we despise the *emasculated* statesman or politician, who with his own concurrence has been made a silent observer of stirring events, without the manliness to be either their controller or an active agent therein.

In a late editorial we spoke in befitting terms, of the ignorance and impudence of a New York journal, for its comments upon our elections and their results. Whilst we greatly deplore, that any enlightened and influential journal, in a neighboring State expressing sympathy with us, should lend its editorial columns to the depreciation and detraction of our candidates, we conceive it *our duty* to correct at home, sternly combat and expose for popular reprobation the authors of the crime and some of the gross wrongs which outsiders indulge in, and which so greatly retard our progress in human civilization and rational liberty. The pretended *neutrality* of our home journals, has furnished the food upon which outside "barbarians and cannibals" have and are now feeding.

Early in the campaign, and when it was known that the entire country anxiously looked to the old "Keystone" State for safety and security to the National Government and our hallowed institutions. When the result of its elections would be regarded by all intelligent persons as either upholding or condemning the Administration and its policy, which it had helped to place in power, and to mould and form; when the momentous issue whether "slavery and bigotry" were to be forever established or eternally overthrown, and when public attention and affection had fixed, almost *without doubt*, and determined upon the election of a distinguished citizen as our standard bearer—a few of our home newspapers, without apparently reasoning upon the *probable* results—or, if so, disregarding them—with fierce and untruthful attacks, assailed and "patched up a record of infamy," which was freely and unjustly used by our political opponents during the contest. This grievous error, *worse*, politically, than a crime, has never been repudiated or withdrawn, and, of course, has led other impertinent newsmongers to sustain and endorse it.

To sustain an opposition to particular individuals, these journals were willing to sacrifice political principle and to endanger the triumph of the people in their contest with slavery and aristocracy. To fight off these malignant charges, proved, as our opponents asserted, from the "mouthpieces of our party," gave us more trouble and vexation, and lost to us more votes, than all the ingenuity and eloquence of open enemies. On every stump, in every locality, by every petty politician, these slanders were reiterated, and the testimony of our own acknowledged papers to their truth was appealed to, as "confirmation strong as proofs from Holy Writ."

In the great struggle just ended, these papers remained as dead and cold, and repulsive, as the death shroud upon the limbs of youth and beauty. In European nations, of aristocratic tendencies, we had that same neutrality that always leaned against us and our government. They furnished the ammunition, the rams, and supplies of active and effective war to our opponents; but they *pretended* neutrality, whilst thus cutting close to the heart-strings of the nation's life. Our non-active and neutral home journals did the same thing in the great war just terminated; for while professing friendship, they stabbed us in the direst hour of our danger.

Is this desperate action of a desperate faction to be repeated? Professions are worthless, unless we have a full and entire retraction of former errors, and contrition for past crimes.

Nor is it less surprising to an intelligent mind that the National Administration, whose conduct and policy were to be passed upon, and either condemned or approved by the verdict of our people at the ballot box, should stand, idly by the wayside, and neither rebuke, by dismissal from its service and *endorsement*, these unworthy and *hurtful* neutrals or at least *warn* them that for them a future of less importance was intended. It is sad to know that *after* the people had decided the issue a *mere* note from one of its "*clerks*," that *he* was gratified with the result, should be the only apology and reproof ministered to the men who had so vigorously labored to destroy it and its policy. Why did not *he* speak in stronger tones to his appointees who had, to the extent of their humble ability, endeavored to repudiate the chosen candidate of the only party that *could sustain* the Administration.

We talk plainly on this subject, for we feel deeply the injustice that has been done the loyal masses.

If the *neutrals* holding high position in the Government and most of its lucrative and influential offices, surreptitiously obtained under false pretenses, had acted heartily with us, the majority for Governor CURTIN and *the country*, instead of being a meager twenty thousand, would have been swelled to double or treble that number. *Not that such men* possessed any *personal* influence, but *their endorsement* by the National Administration gave to them *power*, *name* and *position*, that was greatly used against it in the great trial and triumph that the people have achieved.

We say now, and defy contradiction, that Gov. CURTIN *with the people* was thousands stronger than any other citizen, and that without him as our standard-bearer the result would have been, in all probability, disastrous to our cause and the country.

Will the Administration take a note of these "neutrals"? If they are to be cherished and fostered, the result may be very different from that of the glorious 13th October last.

The Large Vote of the 13th inst.

It is evident that both the friends and foes of the State and National Administrations were busy last week in polling a full vote. Take, for example, Allegheny county. Her vote in 1860 was unusually large, the largest by odds she had ever polled. Here it is:

Lincoln,	16,725
Democratic, fusion,	6,725
Douglas, straight,	523
Bell and Everett,	570
	24,543

Last Tuesday's vote was as follows:

Curtin,	17,708
Woodward,	10,053
	27,761

This is an increase of 3,218, equal to 13-12 per cent on the vote of 1860. The number of citizens of this county, absent in the army is not less than 7,000.

In the entire State the vote of 1860, was:

Lincoln,	268,518
Democratic, fusion,	175,896
Douglas, straight,	17,350
Bell and Everett,	12,754
	474,518

An increase of 13-12 per cent on this vote would be 64,000, in an aggregate vote of the State of 538,000. A few days will show the result. We do not anticipate that the agricultural districts will show so large an increase as is the case in this county. The number of soldiers absent in the army, from the entire State, cannot be below 80,000.

VALUABLE lead mines have been discovered at Newport, N. H., and immediate steps are to be taken to work them.

THE next State Senate in Ohio will probably be unanimously Union.

SUICIDE.—We learn that JOHN MORITZ, of Howe township, Perry county, committed suicide by hanging himself by the neck in his barn floor, on Wednesday morning last. He was about 62 years of age. He had been at the election the day before. No cause is assigned for his act; but it is probable that he was laboring under an aberration of mind.

PARTRIDGE SHOOTING.—This sport commenced on the 15th inst., and will continue until the 1st of January next. As a natural consequence many of our citizens started upon the war-path after poor "Bob White," who will be obliged to keep cover very closely if he wants to escape the vigilant and untiring search of his remorseless enemy—the gunner.

ACCORDING to the Harrisburg *Telegraph* there has been quite a stir in military affairs here within the past twenty-four hours. The movement of army teams, and the passing of troops lead us to believe that something important is about to transpire somewhere. There are a dozen directions in which troops could move from this point; but which one they *did* move in we are unable to state.

DEATH OF COL. RUFFIN.—Col. THOMAS Ruffin, of North Carolina, Colonel of the First North Carolina rebel crvalry, who was wounded at Bristow's Station on Wednesday, and was brought into Alexandria, died at Grace Church hospital on Sunday, and was put in the private vault of Mr. RICHARD WINDSOR, in the Methodist Protestant burying-ground, to be removed after the war to his home in North Carolina. Col. RUFFIN was a member of Congress from North Carolina before the rebellion.

MELANCHOLY SUICIDE.—On Thursday morning, HENRY MUTHART, a citizen of the Second ward, Reading, committed suicide by cutting his throat with a razor. It appears that the deceased had just recovered from a severe spell of typhoid fever, which affected his mental faculties. In the morning, however, he appeared to be better than usual, and asked for his razor, saying that he intended to shave himself. Having received the razor he apparently went about performing the operation, when his wife came to his apartment she found him weltering in his blood. The deceased leaves a wife and two children to mourn his melancholy loss.

IMPORTANT ALTERATION IN THE SCHOOL LAW.—The attention of our readers is directed to the fact that, by the act af April 14th, 1863, the sum appropriated for the support of common schools, for the school year ending on the first Monday of June, 1864, is to be divided among the several districts, in proportion to the number of children attennding school therein, and not, as formerly, according to the number of resident taxables. This is an important alteration, and will materially change the umounts received by the different districts. Now, as we understand the subject, the greater the number of scholars and the more regular their attendance upon the public schools, the greater will be the amount of money received from the State Treasury.

As this is a matter of interest to every citizen in the Commonwealth, we hope that editors throughout the State will call attention to it in their editorial columns.

Pittsburgh Sanitary Commission.

We are in receipt of a letter from Dr. M. C. Reed, written from Stevenson, Alabama, in which he answers the question asked by so many anxious hearts.

STEVENSON, September 29.

You ask my opinion of the best mode by which friends at home can, in the present emergency, aid the wounded of the recent battles before Chattanooga.

In answer, I would say that it is the opinion of officers and physicians, (an opinion in which I fully concur) that the prime want now is a larger supply of all kinds of hospital stores, to be accumulated as fast as possible here and at Bridgeport, and that zealous laborers are now more needed in the *home field*, to collect and forward stores, than they are at any other point. Enough agents are in the field already to forward and distribute all stores it is yet possible to get transportation for from this point.

A large majority of the wounded have already been sent away from Chattanooga, and for those remaining, I am satisfied there is now a full supply of medical and other attendants. Now the demand is for supplies.

By sending forward supplies in every government wagon, and every ambulance we can secure, we are getting them through in sufficient quantities to meet the more urgent demands. It is expected that better and larger facilities will now be afforded by railroad and the river, while a series of engagements, more bloody than those which have recently occurred, may be expected before many days, or at most many weeks, have passed. Every effort should be made to secure a prompt and steady supply of stores for all our sick scattered along the railroad from Bridgeport to Louisville, and a large accumulation here and at Bridgeport for shipment to the front at every opportunity, and to meet every contingency. By laboring for this in the home field, our friends can do vastly more for the sick and wounded than by attempting to visit the front."

CITY INTELLIGENCE.

Subscribers in Manchester can be supplied with the DAILY COMMERCIAL by leaving their names with John P. Hughes, tobacconist, Beaver street.

South Pittsburgh, Birmingham, East Birmingham and Brownstown.

Citizens of the above places can have the *Daily* and *Evening Commercial* left at their residences by leaving their names at the undermentioned places:

South Pittsburgh—Nankter's store.
Birmingham—Mrs. Ramsey's News Depot, Carson street.
East Birmingham and Brownstown—At Leithead's News Depot, Carson street, East Birmingham. GEO. H. LEITHEAD, Carrier.

Pittsburgh is placed under obligations to the Hope Steam Fire Engine Company of Allegheny, for its efficient service during the late fire on Third street.

Pittsburghers in Philadelphia.—The following Pittsburghers were registered at the Philadelphia Hotels on Monday:—B. L. Fahnestock and wife, Chas. G. Blume, E. Baker and lady, T. C. Davis.

Church Robbed.—Some sacreligious scamp entered St. Peters Roman Catholic Church, Allegheny city, last night, and broke into the depository of the valuables of the church, and carried off between two and three hundred dollars worth of property.

Found Dead.—On Saturday morning, the 3d inst., Samuel Michael was found dead upon the premises of Charles P. Deitrich, in Greenwich township, Berks county. An inquest was held upon the body by Silas Christman, Esq., and a verdict rendered of death from natural causes. The deceased was an unmarried man, well known in the neighborhood and about 35 years of age.

Speedy Justice.—In the Criminal Court on Wednesday, Thomas Carroll, charged with burglary, in entering the dwelling of Mr. Walsh, in Allegheny, and carrying away therefrom a quantity of ladies' wearing apparel, was convicted. Thomas committed the offence on Saturday, was arrested on Sunday, the Grand Jury found a bill this morning, and in a few hours afterwards he was convicted.

Fatal Accident.—A boy named Josiah Lance, aged ten years, residing in Fairview, on the Cumberland side of the river, opposite Harrisburg, was shot dead by his brother, on Saturday last, while on a hunting expedition near that village. We learn that the deceased was standing in front of the muzzle of a gun, which was discharged, while his brother was repairing its lock. Persons handling fire arms cannot be too careful.

Trial for Perjury.—In the United States District Court on Tuesday morning the case of William Jackson, of the Second Ward, charged with perjury, was taken up. The defendant was among the drafted men, and in order to secure his exemption he swore that he was over thirty-five years of age. The government relied that from their own knowledge, and the admissions of the defendant, he was considerably under thirty-five. The case is still on trial.

Police Intelligence.

BEFORE ALDERMAN TAYLOR.—Sarah Lichtenthaler made oath that on the 21st of October, there was stolen from her a five dollar bill, which bill was taken by Mansfield Mason. He was arrested and committed to jail for a hearing to-morrow.

Henry Kump made oath that Michael Estranger, without any cause or provocation, beat him with his fist. After an examination, Michael was committed to jail in default of bail, to answer.

Important Official Decision.—Col. W. Hoffman, Commissary General of Prisoners, U. S. A., has decided, in a case recently submitted by Messrs. Joseph E. Devitt & Co., of Philadelphia, that the allowance for the commutation of rations while a prisoner, is entirely a personal one, and cannot be claimed by heirs or relatives. This decision is one which affects the interests of many families of prisoners who may have died in Libby or the other prisons of rebeldom.

Destructive Conflagration — The Third Presbyterian Church in Ruins.

About ten o'clock yesterday morning a fire broke out in the building adjoining the Third Presbyterian church, on Third street, near the corner of Ferry. The building was occupied, the first story by Willian Chester, carpenter; second story by Charles Glenn, tobacconist; third story and cellar by Messrs. Boyd, Morrow, Gladden & Johnson, patent roofers. Mr. Johnson was preparing, in the third story, some patent rooing at the time the fire originated, which was caused in this way: In making some cement he had near him a barrel of benzole, which ignited and the barrel bursted. In his endeavors to escape from the room, he fell from the top to the bottom of the stairs, and was badly injured. The building was soon in a sheet of flame, and the fire extending to the Third Presbyterian Church, the noble edifice was soon enveloped in flames. As the flames reached the towering steeple, the scene beggared all description. Wrapped in a mantle of fire and smoke, defying the herculean efforts of the combined fire departments of this city and Allegheny, the scene was one of grandeur. Many a tear was shed at seeing the old building thus devoted to destruction, after having escaped so many disasters. Once struck by lightning, and escaping the disastrous fire of 1845, it was thought that it was protected by the hand of Providence.

The wind was towards the east, and consequently the fire burned more rapidly on the eastern side. Once the alarm was given that the steeple was about to fall, and the street was cleared, but still the towering pinnacle stood as though defying the ravages of the destroyer. For twenty minutes after the first alarm it remained, until it appeared to be supported by nothing but slender spires of flame, when all at once the cry was given "there it goes!" We had watched it until we were dizzy, but now we saw the vane gently inclining towards the east, as though it would have fallen on the author of its destruction, when changing, the base gave a graceful swerve, and the immense mass fell into the body of the church.

The bell of the church was the largest in the city, and weighed some five tons, requiring eight horses to haul it to the building. In its fall it was broken into fragments.

During the progress of the fire some three or four members of the Columbia Hook and Ladder Company entered the church for the purpose of saving what they could. About the time the bell fell in the steeple, they made a rush to escape, and all did so, with the exception, it was feared, of one man. When we left the ground, the company was polling its members to ascertain if any were missing. George Dolmas, while handling hose, was thrown by the force of the stream to the ground and had his right arm dislocated and sustained other injuries. Dr. Wm. M. Kerns, who happened to be near at the time, attended to the injuries of Dolmas.

The effective services of steam fire engines were never more fully realized than at this fire. At one time it was thought no human efforts could save the buildings opposite the church. But the well directed streams of the steamers prevented the spread of the flames, and confined them to the church.

The church was insured for $20,000, the amount being distributed as follows: North American of Philadelphia, $5,000; Western, $5,000; Allegheny, $5,000; Franklin, $5,000. There was also an insurance of $1,200 on the organ in the Western Insurance office.

The church originally cost between $60,000 and $70,000, and some three years since had an additional sum of between $9,000 and $10,000 expended on it for repairs. The clock in the steeple has been the standard of time for all the people in the lower wards, and its absence now will cause much regret. The church edifice was constructed by Messrs. James H. and Archibald McClelland.

Mrs. Robt. M. Riddle has an insurance of $2,000 in the Pennsylvania Company. John Grazier, tobacconist, occupied the adjoining building on the East, and sustained some three or four hundred dollars loss from water. He is fully insured in the Pittsburgh and People's companies.

HISTORY OF THE CHURCH.

The Third Church was organized March 19, 1833, and consisted of thirty-six members, principally from the First Presbyterian church of this city. In June, 1833, Rev. David H. Riddle, D. D., now the talented Principal of Jefferson College, received a call to become their pastor, which he accepted, and his installation took place January 15, 1834. The church edifice, which was this morning destroyed, was solemnly dedicated to Almighty God in August, 1834. On March 19, 1857, Dr. Riddle, at his own request, was dismissed by the Presbytery of Pittsburgh, to take the pastoral charge of the Reformed Dutch church, in Jersey city. October 1st, 1857, Rev. Henry Kendall, of East Bloomfield, New York, and a most talented and pious man, was elected Pastor of the church. He entered upon his labors in January, 1858, installed July 18, 1858. Up to 1859, the whole number of persons received into the church since its organization was eight hundred and sixty-nine. Rev. Herrick Johnson, the present pastor of the church, preached his first sermon in Nov. 1862.

"Daily Commercial" Job Printing Office.—Orders for every style of Book and Job printing promptly and neatly executed, from a visiting card up to a mammoth poster. The most rapid and improved steam presses are used in the execution of the work.

FINANCE AND TRADE.

Large Export of Oil.

Yesterday's bills at the P., Ft. W. & C. R. R. showed the exports of oil for the day previous, sent westward, to have been one thousand eight hundred and eighty-eight barrels; probably the largest shipment of oil at any one time that was ever sent over that road. Our western friends are waking up to the importance of carbon oil as an agent of light and a lubricator.

Bills purporting to be issued by the "Bank of the Georgia Lumber Company," Portland, Me., are being industriously shoved at New Haven. There is no such bank.

The Pennsylvania Railroad Company announces a semi-annual dividend of five per cent., free of government tax, payable on and after the 15th of November. The transfer books, now closed, open on the 1st of November.

The brokers were paying 50 and 53 cents for the notes of the Bank of Tennessee yesterday, and we did hear that 55 cents had been paid by one or two parties. Planters' and Union Bank notes commanded 63 and 65 cents.—*Nashville Dispatch, 16th.*

THE NEW POSTAL CURRENCY.—The wretched new Postal Currency, of which specimens have begun to appear here, was gotten up in Washington City, and none of our New York artists or artizans are responsible for it. The entire work of designing, engraving and printing the notes was done in the Department at Washington—which fact is recorded in a line at the bottom of the notes themselves. We hope it will not be allowed to go into circulation. We could better endure our present dirty slips a month or two longer than the substitution of such trash,—if the notes we have seen are specimens of those that remain behind.

INDIANA BANK NOTES.—The Sinking Fund Commissioners have concluded to redeem the Indiana Bank Loan Bonds, the holders of which loan provide that the State shall have the privilege of redeeming them, after the lapse of twenty years, which time has expired. These bonds fall due in a short time. The Board advertise that they are prepared to redeem them at the office, at Indianapolis, or at the banking house of Winslow, Lanier & Co., in New York City, with interest thereon, on and after the 1st day of December next, and that interest will not be allowed on the unredeemable bonds after that date.

PITTSBURGH GENERAL MARKET.

OFFICE OF THE DAILY COMMERCIAL, Thursday, October 22.

There was a slight improvement perceptible in business circles. In the absence of large sales there was a fair amount of transactions in lots to meet the wants of the local trade. The receipts of produce continue very light. Our railroads are taxed to their utmost capacity with through freights, so that local ones are necessarily neglected. The weather was very pleasant for the season. Unfortunately our river continues very low, so that navigation continues suspended. Freights for the lower parts are abundant, consisting principally of Pittsburgh manufactures.

BUTTER.—The market was steady, with a fair demand. We note a sale of 1,200 lbs., fresh roll, at 22@24c.; sales of keg at 19@20c.

EGGS.—The market presented no change; sales 1500 doz. at 18c. per doz.

HAY.—Notwithstanding the receipts were liberal, the market was firm, with a fair amount of transactions; sales 20 loads at sales, at $32@$35 per ton; sales 30 tons, baled, at $27.50@$30 per ton.

FLOUR.—Holders were very firm in their views. The stock in this market is being steadily reduced with light receipts only to make up the deficiency, as the rates by rail have advanced nineteen cents per bbl.; this will necessarily have to be added to the price. The only business done was in a small way to meet the wants of the local trade. The current rates were:

Extra.—$5,60@$5,75.
Extra Family.—$6,00@$6,75 per bbl.

LARD.—The market was firm, with an improving demand. We note sales of 25 tierces No. 1 at 11½@12c. ₱ lb.

LARD OIL.—Prices were stiff; sales of 50 bbls. No. 1 at $85c per gallon.

APPLES.—We have no change to notice. The supply was about equal to the demand; sales 100 bbls prime at $3@3,25 ₱ bbl.; sales of inferior lots were made at lower figures.

BEANS.—The demand is improving within a few days past, with small sales of small white at $2,50@2,90 ₱ bush.

SALT.—The demand at present exceeds the supply, hence we have to note a firm market at $2,50@2,60 per bbl.

GRAIN.—The market was firm with a large enquiry for the various descriptions. The receipts on hand was limited, and the export demand fair. The decline on the Chicago market was not felt here, the advance on freight more than counterbalancing the same. The rates were as follows:

Wheat.—Red commands $1,18@1,20, readily; White, $1,25@1,30, as per quality.

Barley.—The advance we have previously noted has been sustained. There are plenty of buyers at $1,40@1,50 per bush for Spring and Fall.

Rye—Scarce, the last sale reported to us was at $1,10 per bushel.

Oats.—the demand has fallen off with regular sales at the depot of 75c.

Corn.—Sale of 750 bush shelled at the depot at $1,04@1,05, that being the ruling figures.

POTATOES.—The supply is steadily up to the demand. Sales of good Neshannocks at 75@85c per bush; sales of Sweet New Jersey at $4,75@5,00 per barrel.

GROCERIES.—The market remains very firm with a fair stock in first hands. As prices remain unchanged we omit quotations.

WHISKY—Holders were firm; Sales of City Rectified at 58c per gallon.

PITTSBURGH OIL MARKETS.

OFFICE OF THE DAILY COMMERCIAL, Wednesday, October 22.

Business was very dull, with a very unsettled market. The fact is, those parties who were operating in July and August for large quantities to be delivered in October and November, have "put their foot in it," for the rates then paid are above what the article will now bring; hence it is impossible to realize the figures that purchasers expected would be current. The market was inflated, without anything to justify the rates that Oil was then disposed of. We cautioned dealers at the time, but of course they knew best and will now have to pay for that knowledge. So far as sales are concerned, there was nothing done worthy of note. We quote

Crude—Nominal at 24@25c, without and with the packages, without any person being anxious to speculate.

Refined—These was nothing done to justify prices. The market will no doubt open up soon, when prices will be regulated.

Baltimore Market.

OCT. 21.—Coffee—We have no transactions to record in this article. Rio is held firmly at 32@33½c ₱ lb.

Flour—The only sales reported on 'Change were 300 bbls good Howard street Extra at $7,25, and 400 bbls Ohio Extra and superfine do to the trade at $6,25@6,75 ₱ bbl. Prices of all grades closed firm as previously quoted.

Grain—At the Corn Exchange this morning the receipts embraced 8,000 bushels wheat, 4,000 do corn, 1,500 do oats, and 250 do rye. The wheat market was quiet and prices indicated a decline on all grades of red per bush. Sales of 3,000 bush prime to choice Kentucky white at 1 92@1 95c, 2,000 bushels fair to very good Southern white at 1 80@1 90c, 4,000 bushels damaged to ordinary do at 1 50@1 70c, 1,500 bushels fair to very good Southern red at 1 55@1 60c, 4,000 bushels inferior to medium do at 1 40@1 45c. No choice Southern wheat at market. Corn was inactive and prices irregular. Sales of 2,000 bushels common to prime white at 1 05@1 06c, and 2,000 bushels yellow do at 1 05@1 07c, decline in both colors of 2@3c. Oats were heavy and fully 3c lower. Sales of 2,500 bushels very inferior to prime Maryland at 62@66c measure. Rye was steady, some 300 bushels Maryland bringing 1 00c per bushel.

Whisky—Business is at a stand still. Ohio nominal at 62c ₱ gallon.

Provisions—Under this head we have to note sales of 50 tierces shipping hams (hard salted), at 10½@10¾c, and 30 bbls Bacon, shoulders and Sides in jobbing lots at 6¾@7c ₱ lb. The market closed inactive but prices are nominally unchanged, namely; New Mess Pork $15 75@16, old do at $13 50@14, Bacon Shoulders 6¾@6¾c; Sides 6¾@7c, plain hams 10@11c, the outside figure for canvassed and sugar-cured, and fancy do at 12 @14c. Lard—Western in barrels and tierces 11¾c, and Baltimore refined at 14c. No Bulk meat offering.

Molasses—Most descriptions are in light supply and prices are unsettled. We quote Clayed Cuba at 40@45c; Muscovado at 40@55c English Island at 50@65c, and Porto Rico at 62@65c per gallon.

Sugars—Stocks of all grades are very light and prices rule firm as previously quoted.

Milwaukie Markets.

Receipts of wheat continue to fall off, being only 93,608 bushels against 114,650 bushels same day last year. The market opened at a decline of 2c from yesterday's closing prices, No. 1 selling at $1 11. At the elevators some sales were made early in the day at $1 12½. Holders seemed anxious to realize, and soon all the buyers at $1 11 were supplied, after which the price ruled until near the close at $1 10½, and fully receded to $1 10, closing firm. The dispatches from New York quoting wheat less active and heavy. This, in connection with the advance in freights here, in part accounts for the decline. We also heard some complaints that currency was becoming more scarce. Comparatively little was done in coarse grains. Oats were decidedly lower. No 1 barley quoted at $1 20. Nothing done in corn and but little in rye.

Freights advanced but inactive, opening at 8c for wheat to Buffalo, and closing very firm at 9c, most owners asking 10c.

Winter wheat sold at $1 25, and we heard of sales of bagged No. 1 spring at $1 18½.

Cotton Sales at Cincinnati.

The following sales of Government Cotton were made by W. P. Mellen, special agent of the Treasury Department. The bidding was spirited and prices obtained were very satisfactory. The quality was generally poor:

21 bales, 64½c; 6 do, 70½c; 5 do, 71c; 2 do, 49c; 1 do, 73½c; 2 do, 53½c; 9 do, 61c; 6 do, 61c; 33 do, 70c; 36 do, 72c; 37 do, 71c; 113 do, 75c; 95 do, 56c; 50 do, 76½c; 50 do, 75½c; 50 do, 76c; 50 do, 77c; 50 do, 73½c; 50 do, 75c; 50 do, 78c; 50 do, 77c; 50 do, 77½c; 50 do 79c; 50 do, 76½c; 50 do, 76¾c; 50 do, 77c; 50 do, 77c; 50 do, 68¼c; 50 do, 74½c; 50 do, 75c; 50 do, 80½c; 10 do, 78¼c; 50 do, 70¾; 50 do, 70¾c; 33 do, 69½c; 50 do 42½c; 50 do, 43½c; 30 do, 41c; 50 do, 41½c; 44 do, 43½c; 50 do, 72c; 15 do, 78c; 50 do, 57½c; 50 do, 56c; 36 do, 58½c; 3 do, 81c; 2 do, 74½c; 15 do, 42c; 28 do, 77½c; 50 do, 40c; 72 do, 52c; 30 do, 83¼c; 13 do, 78c; 68 do, 66c; 62 do, 66½c; 35 do, 57c; 6 do, 77c; 9 do, 83c.

BUFFALO MARKET.—Wheat quiet and in good demand—sales of 40,000 bush at $1 16 for No. 2 Chicago Spring; $1 22 for No. 1 Milwaukee Club, and $1 30 for red winter Western. Corn better, with a moderate demand—sales of 41,000 bush at 93c afloat and 95c on spot. Oats firm—sales of 40,000 bush at 67@68c. Whisky quiet and nothing doing. Canal freights better—Corn 15c, wheat 17c to New York. Imports—Flour, 19,000 bbls.; wheat 43,000 bush.; corn, 61,000 bush.; oats, 41,000 bush.; barley, 50,000 bush. Exports—Flour, 2,000 bbls.; wheat, 462,000 bush.; corn, 78,000 bush.; oats, 40,000 bush.

New York Cattle Market.

TRIBUNE REPORT.

BULL'S HEAD, Monday Oct. 19.—We have 5,300 head of Bullocks in the market-place to-day, not counting 300 sold on Saturday, and consequently a very hard market for drovers, the best quality, with a very few exceptions, selling at not over 10c. ₱ lb for the net weight of Beef: and a very limited number, compared with last Monday, will sell at 10c. upon moderate estimates of weight. Some good fair droves of Illinois Steers will not average 8c. ₱ lb at buyers' estimates of weights. Of course the poorest quality will go down as low as it has at any time this Fall. Some of the brokers estimate the decline at $10 a head, and many of them at one cent a pound. The number of first-class Cattle is larger than we have had (or rather the number of those voted as first-class), and that is the reason of the decline, which, however, is not nearly as heavy as upon medium and inferior grades. Some of the owners of good Cattle will not submit to the decline, trusting for a better market this week. Some of the Cattle in market to-day were held over at Albany last week, in expectation of a better market this. Perhaps those who turn out this week will meet the same luck. As the market-place looks, late this afternoon, we shall be surprised if some parties are not compelled to hold over. It does appear almost impossible for all to be out to-morrow. The weather is warm and rainy, and wholesale butchers not disposed to buy freely. All parties seem to know that the market is overstocked, and are acting accordingly. The Sheep market is also overstocked, and prices about 50c. a head lower than last week. The Hogs sleepers at prices equal to 5½c. ₱ lb, and Lambs at 7c. ₱ lb, live weight. The Hog market is affected by the weather, and sales are very dull at last week's quotations.

Philadelphia Cattle Market.

PHILADELPHIA, Oct. 19.—The arrivals and sales of Beef Cattle at Phillips' Avenue Drove Yard, continue large, reaching about 2,000 head. The market, in consequence, is dull, and prices about 25c the 100 lbs lower. First quality Western and Pennsylvania steers selling at 9½@9¾c; fair to good at 8½@9c and common at from 6½@7½c, according to quality. Stock cattle are selling at from 3½@4c ₱ lb gross.

The market closed very dull, and 300@400 head were left over.

COWS AND CALVES.

The arrivals and sales of Cows and Calves at Phillips' Avenue Drove Yard reach about 100 head this week. There is a fair demand at about previous rates. Springers selling at from $20@30, and cow and calf at $55@42 ₱ head. Old lean cows are selling at from $16@18 ₱ head, as to condition.

CALVES.

About 87 head have been disposed of at prices ranging from 3½ up to 5c ₱ lb, according to weight and quality.

THE SHEEP MARKET.

The arrivals and sales of Sheep at Phillips' Avenue Drove Yard are moderate this week, reaching about 6,000 head. There is a fair demand and prices are without any material change. Fat Sheep are selling at from 4½@5c ₱ lb, gross and stock Sheep from $2@2,25 ₱ head, according to condition.

Lambs are scarce. Sales are making at prices ranging from $1,50 up to $3,50 per head, as to quality.

THE HOG MARKET.

The arrivals and sales of Hogs at the Union Avenue, and Rising Sun Drove Yards, are large this week, reaching about 4,400 head, and selling at from $6 up to $8,25 the 100 lbs net.

3,324 head sold at Henry Glass' Union Drove Yard at from $6,50 up to $8 ₱ 100 lbs, net.

970 head sold at the Avenue Drove Yard, by John Crouse & Co., at from $8@8,5 the 100 lbs, net.

400 head sold at the Rising Sun Drove Yard, by Phillips & Muth, at from $6,50 up to $8 the 100 lbs, net, as to quality.

New York Dry Goods Market.

Trade in Dry Goods during the past week has been somewhat broken and irregular, but on the whole a fair business has been transacted at rather better prices. Brown Sheetings and Shirtings have again slightly advanced, with a moderate business. Bleached goods may be quoted 10@15c higher. Drills are firmer and standard goods are now held at 42½c. Cotton Flannels have ruled quite active, and with stocks materially reduced, prices strongly favor the seller. Cotton Duck is in limited supply and prices are nominal. Osnaburgs are quiet and nominally unchanged. Stripes and Ticks have ruled steady with a fair business. Denims have continued firm. Printing cloths have ruled quiet, but holders generally are very firm. Prints have been in good request at 2@2½c for good style. Ginghams are held at 26½c. Mousdelaines are in light supply, and sell freely at 40@50c. Cloths have again slightly advanced, with a fair demand. Fancy Cassimeres are in good request at full prices. Plain goods are quiet and a shade firmer. Satinets have not materially changed in price, but rule very dull. Kentucky Jeans have advanced 2½@3c ₱ yard, with a fair demand. Blankets are firmer, with a fair inquiry. Flannels have continued firm at the late improvement. Shawls are scarce, and very firmly held. Trade in foreign goods has been quite active, and with limited stocks of seasonable fabrics, prices still strongly tend upward.

Foreign Markets.

UNDER date of October 9, we find the following—

LIVERPOOL COTTON MARKET.—The *Broker's Circular* reports:

"The sales of the week amount to 60,000 bales, including 16,500 bales to speculators, and 16,000 bales to exporters. The market has been irregular, with a decline of ⅛@1-32 ₱ lb on the week. Monday (Friday having been a holiday) and Tuesday's sales, including 3,000 bales to speculators and exporters, the market closing quiet and unchanged. Fair qualities are nominal, and the following are the quotations of middlings:

Orleans middling	27d
Mobile middling	26¾d
Uplands middling	26¼d

The total stock of cotton in port is 185,000 bales, including 41,000 bales of American.

LIVERPOOL BREADSTUFFS MARKET.—The market for breadstuffs is generally steady. Wheat firmer, with an improvement in inferior qualities.

LIVERPOOL PROVISION MARKET.—The Provision market is steady. Lard is still advancing. Tallow has an upward tendency.

LONDON MONEY MARKET.—Consols closed today at 92¾@93 for money. Bullion in the Bank of England has decreased £122,000.

American stocks—Illinois Central Railroad 10@12 discount; Erie Railroad, 67@68.

The Bank of France has advanced its rate of discount to 5 ₱ cent., owing to the heavy drain upon specie.

The political news to-day is of an unimportant character.

Saint Louis Tobacco Market.

Tobacco—The market opened very active, and prices firm on Monday. Tuesday it became very much excited, and prices on manufactured and shipping leaf advanced from 3 to 5c higher Wednesday, Thursday, Friday and Saturday. The market continued firm, and closed on Saturday firm and active. Sales during the week, ending on Saturday, consist of 541 hhds, and prices have ranged as follows: For stems at $2 30@3 50, do factory lugs at $5 90@7 00, do planters' lugs at $7 00@10 20, do common shipping leaf at $7 70@14 00, do medium shipping leaf at $11 10@17 75, do good and fine shipping leaf at $17 50@25 72, do medium manufacturing leaf at $18 00@29 25, do good and fine manufacturing leaf at $27 50@38 50.

PHILADELPHIA BOOT AND SHOE MARKET.—The *Reporter* says: There has been some slight falling off in trade from the west, and the political excitement pending the election has kept back the State trade so that jobbers have found time to look about them, and occasionally to electioneer for their respective parties. Our manufacturers are, however, busily employed, and orders are more numerous than can be answered at once. The demand seems to cover all classes of goods suitable for fall and winter wear, although perhaps hardly the usual quantity of extra fine work is required; buyers generally select the more substantial goods. The call for fine boots and shoes, however, is improving. Men's calf double sole kips and wax boots are in good demand, both for the sewed, nailed and pegged. Misses and children's shoes are in short supply, and buyers are often forced to leave long orders ahead, or take goods not desired in their localities. The rates of all seasonable goods are firm.

Boot and Shoe Trade.

The following is a comparative table of the shipments of boots and shoes from the New England markets:

ST. LOUIS SUGAR MARKET.—We quote New Orleans old at 13@14c. Prices of Sugar at Belchers' have changed since our last quotation as follows: crushed sugar, double refined, 17¾c; crushed sugar, B, 17¼c; crushed sugar, 17¾c; powdered do, double refined, 17¾c; powdered do C 47¾c; granulated do 17¼c; refined white do, O 16¾c refined white sugar, OO, 16½c; refined yellow, A 16¼c; clarified, XXX, 15¾c. Golden Syrup, bbls 35c; ½ bbls, 37c; kegs, $1; sugar house syrup molasses, bbls, 66c; ¼ bbls 68c; kegs 71c; City Refinery sugar house molasses, bbls 58c; ½ bbls, 60c; kegs 63c.

GAMBLING IN RICHMOND.—In the Virginia House of Delegates a bill for the suppression of gaming, which had passed the Senate, was rejected on the 15th instant. In the course of the debate on the bill it was stated that tickets were recently sent to the officers of General LEE's army from one of the large gambling-houses of Richmond, inviting them to a fine dinner. The discussion in the legislature appears to have alarmed the gamblers, for the *Enquirer* says:

"It is said that every gambling hell in Richmond was closed on Thursday night, and that the flight of the gamblers to Petersburg had begun."

Several establishments in Richmond will, however, it is hinted, continue their operations on a smaller scale than formerly.

A PROCLAMATION from Gov. TOD informs the public that Ohio's quota of volunteers, under the new call, is about five thousand, and that a draft for that number will be made on the 26th inst., if they are not sooner raised by volunteering.

LATEST BY TELEGRAPH.

FROM PHILADELPHIA.

Special Dispatch to the Commercial.

PHILADELPHIA, Oct. 21, 1863.

Lee's Plan of Attack Last Week.

Rebel prisoners, taken by our cavalry, say that LEE's design was, by his attack last week, to shove MEADE back to the defences of Washington, then to turn and make the railroad impassable toward Richmond for three or four weeks, and to hurry with a superior force down the Virginia and East Tennessee Railroad, smash BURNSIDE if he could, and then to hurry back to MEADE's front.

The Removal of Rosecrans.

A well posted correspondent writing from Washington says that the removal of Gen. ROSECRANS from command of the Department of the Cumberland has been fully determined upon. The fact that Gen. ROSECRANS was, with Gens. McCOOK and CRITTENDEN, asleep in Chattanooga, while Gen. THOMAS was fighting alone, has been known to the Government for weeks.

It is also understood that General ROSECRANS has failed, ever since the battle of Chicamauga, to exhibit, in his dispatches, a spirit equal to the circumstances in which he found himself.

The President's private Secretary has just returned from his mission to the West. He delivered the appointment to the new command in person to Gen. GRANT. H.

FROM CINCINNATI.

Special Dispatch to the Commercial.

CINCINNATI, Oct. 21.

Rosecrans Relieved by Gen. Thomas.

The rumor of yesterday is confirmed by the news of to-day. Gen. Rosecrans is relieved, and Gen. Thomas made his successor. This was necessary if Grant was to have supreme command. There is an old feud between General Rosecrans and General Grant. It was of course kept in obeyance, but harmony in the administration of affairs has been undoubtedly promoted by the change. Further than this, there were several Generals who should properly have acted in conjunction with ROSECRANS, whose commission antidated his. Matters were getting wild, much in the same posture as when there was a famous concentration of Generals in the Shenandoah Valley.

Government has profited by that lesson in more pegs than holes. You may look for still greater changes in subordinate commanders. There will be little feeling in the business.

We have no army news to day. The sudden retreat of General LEE south of the Rapidan, is attributed to BURNSIDE's menace of Lynchburg, their great depot of supplies.

Gen. BURNSIDE was within a hundred miles of that place when LEE received preemptory orders to fall full back and protect it.

JOE JOHNSTON is said to be manouvering to cut off SHERMAN, and prevent his reinforcing THOMAS. C.

NASHVILLE, Oct. 20.—Gen. Meigs and staff arrived this evening.

It is reported that Gen. Grant assumes command of the Departments of Cumberland, Tennessee and Ohio, to be called the Military Division of Mississippi. Gen. Thomas, it is reported, is to command the Army of the Cumberland.

Gen. Hooker is at Stevenson, Alabama.

Hon. E. M. Stanton arrived on a special train, and is the guest of Jddge Catron. On his arrival, a large number of citizens assembled at the St. Cloud Hotel, where sp eches were delivered by Gov. Johnston, Gen. Grant and Gen. Meigs.

NEW YORK, Oct. 21.—The Port Royal, *New South*, of the 17th, contains the following:

The United States steamer Bienville, of the Western Gulf Squadron, touched in the harbor on her way to Philadelphia for repairs. She brings important intelligence which had been received at New Orleans just before her departure, that a grand expedition under Maj. Gen. Banks had effected a junction at Point Isabel, Texas, a small place at the mouth of the Rio Grande river with two corps, one under Franklin and the other under a Major General whose name we did not learn.

The successful occupation of Point Isabel will give us in a short time possession of Brownsville, which is opposite Matamoras, Mexico, the Grand entrepot of the rebels, from which munitions of war and needed supplies are transferred across the Rio grande to the former place by small boats.

We find the following beautiful lines going the rounds of our exchanges, bearing the title of "October Harvest Song:"

We gather them in—the mellow fruits—
From the shrub, the vine and tree,
With their russet and golden and purple suits,
To garnish our treasury.
And each has a juicy treasure stored.
All beneath its painted rind,
To cheer our guests at the social board,
When we leave our cares behind.

We gather them in—the goodly store—
But not with a miser's gust;
For the great All Father we adore,
Hath but given it in trust.
And our work of death is but for life
In the wintry days to come;
Then a blessing upon the reaper's strife,
And a shout at his Harvest Home.

LABOR.—Would you be an honest man, and enjoy competency with pleasure unknown to hasty wealth and sly roguery—work. Let your sweat-drops wash your gains from all dishonesty. You shall live to tell your children that you have observed and felt the wisdom of the royal preacher, "Wealth gathered by vanity shall be diminished, but wealth gathered by labor shall increase."

ACCORDING to the Japan *Herald*, the Japanese have five men-of-war, two of which are royal presents; the others are estimated to have cost $300,000. They have thirteen screw and six paddle steamers, two barks, nine brigs, and two schooners, giving a total of thirty vessels, for which they have paid $2,351,841. At the latest advices, part of the English fleet had left Yedo Bay and gone south—perhaps to take the Loochows.

ON the night before the election Rev. Dr. BRONSON, of Sandusky, urged a prompt attendance at the polls on the next morning, to see that everything was done right, and said he should be there at six o'clock. The reverend doctor was on hand as he promised at his polls in the Second Ward, and, it being supposed that the doctor might do some good in a spiritual way, he was asked to make a prayer, which he did with great unction and with great effect upon the auditory. So there was one set of poll books opened with prayer.

ELECTIONS YET TO COME OFF.—Elections are yet to be held this fall by the following States, on the dates named, viz:

New York, Tuesday, Nov. 3.
Wisconsin, Thursday, Nov. 5.
Maryland, Wednesday, Nov. 4.
Delaware, Tuesday, Nov. 3.
Minnesota, Tuesday, Nov. 3.
West Virginia, Thursday, Oct. 22.
Massachusetts, Tuesday, Nov. 3.
Missouri, Tuesday, Nov. 3.
New Jersey, Tuesday, Nov. 3.
Illinois, Tuesday, Nov. 3.

In Maryland, Delaware and West Virginia, Congressmen are to be chosen.

WEBSTER.—The Boston *Post*, in noticing the recent visit of Mrs. WEBSTER to the tomb of her husband in Marshfield, says, after ten years of sepulture in the harbor of the Pilgrims, the doors of the tomb swung solemnly back, and the lid of the sarcophagus was raised by the friendly hand of surviving friendship, PETER HARVEY, Esq., to see what traces a decade of years in death had left of the illustrious departed. It was found that the "noble brow was yet perfect in all its features," and that the "contour of that impressive face" was preserved the same as on the day when the funeral of ten thousand, at whose head was a President elect of the United States, in all his supernal prime, took up its solemn march from the library at Marshfield to wind its way to the "Tomb by the Great Sea."

A FUND FOR THE WIDOWS AND ORPHANS OF SOLDIERS.—Celebrations of the great Union victories will soon be held in all the counties of Ohio and Pennsylvania. We suggest that instead, of sumptuous banquets, and brilliant displays, these celebrations should be made the occasion of raising a fund for the benefit of widows and orphans of soldiers killed in the war for the Union. In the two States the contributions would probably amount to a million of dollars, which, invested in Government bonds, would yield a handsome income. Such a method of celebrating the loyal triumph at the polls would be worthy of our cause, in keeping with our principles, and due to the memory of our noble dead. It will form a bond of Union and sympathy which cannot be broken, and will meet the approbation of every just and generous citizen. Such a fund could not fail to do good, and it can be obtained by the slightest exertions.

Papa—"That's right. Now tell me all you have learned to-day."

Sissy—"I have learnt the names of all the little boyth."

A FIRM of biscuit manufacturers in Carlisle, England, by way of showing what could be done by rapid work, recently had a field of wheat reaped, the grain thrashed and ground, and the flour made into biscuits, which were served hot on the breakfast table at eight o'clock, in exactly four hours from the time sickle was first put into the standing grain.

IN Paris the ladies carry canes. and in London they smoke cigars. This will change the formulas of the exquisites. Adolphus Augustus will say to his inamorata, Maria Louisa Eugenia—"Shall I take your stick?" and Henry will say to his Anna, "Will you smoke an Havana?" Singular how these things will work.

THE MATCH BETWEEN HEENAN AND KING FOR $10,000.—This event is creating extraordinary interest in sporting circles, the like of which can only be found during the anticipated "mill" between Heenan and Sayers. At Tattersall's (London), about two weeks since, a bet was made on Heenan of $3,000 to $2,000, and taken. The sixteenth deposit of $250 was made at Jemmy Walsh's, in the Borough; the seventeenth, of $250, was to be made on Thursday last, at Harry Orme's, Shoreditch. It is the intention of Heenan's friends to give him a complimentary benefit before he goes into strict training at Newmarket.

MEDICAL.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS.

HEAR THE WITNESSES.

WORTHLESS and pernicious articles are so often bolstered up in the advertising columns of the press by fabricated letters that the proprietors of

HOSTETTER'S BITTTERS

Rarely give quotations from their business correspondence, lest the GENUINE OPINIONS of those who use and appreciate a GENUINE ARTICLE, should be confounded by the unthinking with the FULSOME RIGMAROLE put into the mouths of MEN OF STRAW by unscrupulous empirics and charlatans, whose double object is to SELL both their trash and the PUBLIC.

Believing, however, that FACTS IMPORTANT TO THE HEALTH AND COMFORT OF THE PUBLIC, and which can be VERIFIED AT ANY MOMENT by addressing the parties who vouch for them, ought not to be hid under a bushel, the undersigned publish below a few communications of recent date, to which they invite the attention of the people, and at the same time ESPECIALLY REQUEST all readers who may feel interested in the subject to ADDRESS THE INDIVIDUALS THEMSELVES, and ascertain the correctness of the particulars.

It may be thought, perhaps, that a preparation like HOSTETTER'S STOMACH BITTERS which has long been a STANDARD TONIC throughout the WESTERN HEMISPHERE, and is rapidly becoming a staple of trade at the antipopes, speaks for itself in stronger tones than private eulogium can speak for it. This is true; but the phases of disease are almost innumerable, and every day new instances of the success of the Bitters, either as a PREVENTIVE or a CURE, come to the knowledge of the proprietors through the mails. Some of these are of immediate interest to thousands placed in precisely the same circumstances as the parties who have been PROTECTED and RELIEVED, and therefore it seems almost an act of duty to put them on record.

The immense increase in the sale of HOSTETTER'S BITTERS, both at home and abroad, during the past year proves that the world, while it obeys the Scriptural injunction to "try all things," only "HOLDS FAST to that which is GOOD." Spurious preparations, like poisonous fungi, are continually springing up, but the true character is soon discovered, and they are "flung like worthless weeds away." On the other hand, a great antidote that performs all it promises, and even more than its proprietors claimed for it on its introduction, is "not for a day, but for all time."

Every dose administered of a useless or deleterious nostrum helps to disabuse the public mind of the impressions it may have received from the flourish of trumpets with which the deceptious article was announced; while, on the contrary, every bottle sold of a purely valuable medicine secures the permanent custom of the purchaser, and makes him an ADVERTISER OF ITS MERITS among his friends. It is thus that HOSTETTER'S BITTERS have obtained their unparalled popularity. The Press, indeed, has made the GREAT STOMACHIC widely known, but it is the uniformity successful results of PERSONAL EXPERIMENT that have rendered it a HOUSEHOLD MEDICINE through out the length and breadth of the land, and the main reliance of the TRAVELER, the VOYAGER, the MINER and the PIONEER.

During the Summer months, a pure, wholesome tonic, in which are also incorporated the properties of an anti-bilious and mild aperient agent, is especially needed. Such a preparation is HOSTETTER'S STOMACH BITTERS, the surest preventative and cure of dyspepsia, biliousness, constipation, and nervous debility, ever placed within the reach of the community.

Against the depressing and sickening tendency of heat and miasma, it is a potent safeguard, and upon persons of feeble constitution and uncertain health, its renovating effects are most extraordinary.

READ REV W. B. LEE'S LETTER.
BROOKLYN, N. Y., May 28, 1863.

MESSRS. HOSTETTER & SMITH—*Gentlemen:*—I have used your Bitters during the last six weeks and feel it due to you and the public to express my hearty approval of their effect upon me. I never wrote a puff for any one, and I abhor everything that savors of quackery. But your Bitters are entirely removed from the level of the mere nostrums of the day, being parent alike to all, and exactly what they profess to be. They are not advertised to cure everything, but they are reccommended to assist nature in the alleviation and the ultimate healing of the most common infirmities of the body, and this they will accomplish. I had been unwell for two months, as is usual with me during the Spring. I was bilious, and suffering from indigestion and a general disease of the mucous membrane, and though compelled to keep at work in the discharge of my professional duties, was very weak, of a yellow complexion, had no appetite and was much of the time confined to my bed. When I had been taking your bitters a week my vigor returned, the sallow complexion was all gone, I relished my food, and now I enjoy the duties of mental application, which so recently were so very irksome and burdensome to me, When I used your bitters I felt a change every day. These are facts. All inference must be made by each individual for himself.

Yours respectfully,
W. B. LEE,
Pastor of Green avenue Presbyterian Church.

READ E. D. E. N. SOUTHWORTH'S LETTER.
PROSPECT COTTAGE,
GEORGETOWN, D. C., April 2, 1863.

Messrs. HOSTETTER & SMITH—*Gentlemen:* It gives me pleasure to add my testimonial to those of others in favor of your excellent preparation. Several years of residence on the banks of a Southern river, and of close application to literary work, had so thoroughly exhausted my nervous system and undermined my health, that I had become a martyr to dyspepsia, and nervous headaches recurring at short intervals, and defying all known remedies in the Materia Medica, I had come to the conclusion that nothing but a total change of residence and pursuits would restore my health, when a friend recommended Hostetter's Bitters. I procured a bottle as an experiment. It required but one bottle to convince me that I had found at last the right combination of remedies. The relief afforded me has been complete. It is now some years since I first tried Hostetter's bitters, and it is but just to say that I have found the preparation all that it claims to be. It is a standard family cordial with us; and even as a stimulant we like it better than anything else; but we use it in all nervous, bilious and dyspeptic cases from fever down to toothache. If what I have now said will lead any dyspeptic or nervous invalid to a sure remedy, I shall have done some good.

I remain, gentlemen, respectfully yours,
E. D. E. N. SOUTHWORTH.

READ JOHN W. BRONOUGH'S LETTER.
NAVY DEPARTMENT,
Bureau of Yards and Docks, Dec. 30, 1862.

Messrs. HOSTETTER & SMITH, Pittsburgh, Pa.:

Gentlemen: About four years since, my attention was called to your celebrated Stomach Bitters, I being at the time a perfect martyr to dyspepsia in all of its terrific forms; indeed, I had not known for six years an uninterrupted night's sleep. I commenced the use of your Bitters, taking them according to your directions, except that the dose was reduced to one-half, and found myself much, very much benefitted by the first bottle; the second relieved me entirely; but I have ever since taken a dose in the morning, immediately on rising, finding it act as a tonic and appetizer of the most agreeable character. There is a peculiarity in the effect of your Bitters on me, which it may be well to state. If from any cause, I shall be suffering never so acutely with the headache, a dose of your Bitters relieves me in fifteen minutes. In conclusion, I say with all sincerity and truth, I would not be returned to the state of health in which your Bitters found me, and from which they have unquestionably relieved me, for all the money in the world.

I am, with great respect, your obd't servant,
JOHN W. BRONOUGH, Chief Clerk.

READ SAMUEL BYER'S LETTER.
NEW CONVALESCENT CAMP,
Near Alexander, Va., May 24, 1863.

Messrs. HOSTETTER & SMITH—*Dear Sirs:* Will you do me the favor to forward, by express, one-half dozen Hostetter's Stomach Bitters, with bill, for which I will remit you on receipt of the same, as I am unable to procure your medicine here; and if I had a quantity, it could be sold readily, as it is known to be the best preparation in use for diseases having their origin with a diseased stomach. I have used and sold hundreds of preparations, but your Bitters are superior to anything of the kind I am cognizant with. Indeed, no soldier should be without it, should he be ever so robust and healthy; for it is not only a Restorative, but a Preventative, for almost all diseases a soldier is subject to. I have been afflicted with chronic indigestion, and no medicine has ever afforded me the relief yours has; and I trust you will lose no time in sending the Bitters ordered. Yours respectfully,
SAMUEL BYERS, Hospt.

RENSSELAERVILLE, July 7, 1864.

Messrs. HOSTETTER & SMITH—*Gentlemen:*—Please send me some of your Bitters at your earliest convenience, as I have at present an extensive sale for them. I have no medicine of which I sell as much as your Bitters. I have kept them for two years last past. They have now begun to sell. They have performed some remarkable cures in Dyspepsia which have been of long standing, and from which they have acquired a reputation won by no other medicine in our market. I can send you certificates surpassing anything you ever published, if of any value to you, being anxious such a medicine should be introduced in every place. If persons were as well acquainted with it as I am, they would not be without it. Respectfully yours,
W. P. SWEET, Druggist

THIS Lamp is offered the public in great confidence that it is the best one of kind now in the market.

It has been selected by the largest manufacturers of New York and New England, for manufacture, in preference to all others shown them, for its superiority of light,—facility of carrying about, and especially for its *non-conducting principle*, which renders it perfectly safe against the effects of heating.

It is simple in construction and is afforded at very low prices. For a Kitchen and Chamber Lamp, for Workshops' and
